

## Hoffman Specialty Publishes New General Catalog

Chicago, IL -- April 22, 1998-- Hoffman Specialty has published a new General Product Catalog designed to simplify the selection and ordering process of its complete line of steam products.

Featuring an easy-to-use format that lists products by description, photo and model number, the updated catalog now contains sections on steam traps, regulators, vacuum breakers, vents, Y-strainers, pumps and heat exchangers.

Supplementing the catalog's usefulness, a section for Hoffman Pumps and Bell & Gossett Heat Exchangers has been added to the updated listings for the new BearTraps™, Series 8C Vents, Series 754 and Series 1141 Regulators, and Series GT610-IP Electro-Pneumatic Transducer for Series 2000 Regulators.

The comprehensive 144-page catalog also includes special binding that allows it to flatten for easy photocopying.

The new 1998 catalog can be viewed on the company's website, located at [www.hoffmanspecialty.com](http://www.hoffmanspecialty.com), or downloaded to end-user's computers for easy reference. The online edition of the catalog will be frequently updated to contain the most current information.

Hoffman, a unit of ITT Industries, is a leading manufacturer of steam traps, regulators and valves for residential, commercial and industrial applications.
